

(Continued from page 2)

**A REQUEST TO ENROLL** a Negro child in the Camden, N. J., school of the Workmen's Circle was rejected in mid-August. The Negro father was very friendly with Jews and wished to deepen his knowledge of his Jewish friends through Jewish education of his children. The school said it would accept the Negro child only if the father embraced the Jewish faith.

**A TOY CARICATURE** of the American Negro and made in Japan was withdrawn from sale in several New York stores after protests by the National Association for Advancement of Colored People.

**CRITICISM OF THE WHITEWASH** of the Peekskill rioters by the grand jury, whose conclusions absolved the police of responsibility and placed the blame on the Robeson concert-goers, was leveled by the American Civic Liberties Union in a statement issued on August 20. The ACLU statement said that the grand jury had seriously erred in not making clear that the concert-goers, against whom the violence was committed, "were engaged in the wholly lawful exercise of their constitutional rights of free speech and assembly" and criticized the grand jury's exoneration of the law-enforcement authorities.

**AN UNEMPLOYED** longshoreman, Alfred Gordon of Brooklyn, was driven berserk on August 6 by persistent anti-Jewish baiting in a tavern until he fired a revolver at his tormentors, killing one and wounding another. Gordon was at the bar with his wife and father-in-law when unprintable anti-Semitic epithets were hurled at him. He took his wife and father-in-law home, returned to the bar with a revolver and shot the anti-Semites. "I couldn't take it any longer," he told police. "I lost my head. I pulled the gun out and let go."

## EUROPE

**JAMES DUNN**, United States ambassador in Rome, was reported to be aiding the setting up of a European fascist international in September under the guise of a cultural organization with the name, Association of International Solidarity. Dunn is reported to have helped the Italian neo-fascist party, Movimento Sociale Italiano (MSI) to initiate the conference. Those said to have been invited included the British Union of Fascists (Mosleyites), the Austrian "Union of Independents," "German Party" from Germany, "Liberation of Flanders" from Belgium, De Gaulle's "People's Rally" and the Spanish Falange. It is expected that a coordination center will be set up under supervision of MSI's Giorgio Almirante.

**EIGHT MAJOR NAZI** war criminals were released from Landsberg Prison on August 16 because of "good conduct" by order of the American High Commission. Among the eight were: Walter Darre, former nazi minister of food and agriculture, who recruited East European and Jewish slave labor for German farms; Otto Dietrich, nazi press chief; Friedrich Flick, steel industrialist who used slave labor; banker Karl Rasche; Heinrich Lehmann, former Krupp director who used slave labor; Fritz Ter Meer, former I. G. Farben director. (Landsberg Prison holds 620 war criminals, of whom 101 were convicted by the Nuremberg War Crimes Tribunal, the rest by military courts at Dachau.) *The New York Times*

in late August criticized the administration for release of war criminals before completion of sentence.

**RESURRECTION OF THE NAZI** party was pledged at the graveside of a former S.A. leader at a recent funeral in Duesseldorf. Mourners stood at attention with arms raised in Hitler salute while a former top-ranking member of Hitler's "Labor Front" promised rebirth of the party and victory for nazism.

**SOME 200 ANTI-SEMITIC** LETTERS, some filled with profanities, were received by Bavarian Prime Minister Hans Ehard from Germans in the United States, mostly from Yonkers, N. Y., attacking Ehard for bringing to denazification court Mathilde Ludendorff, widow of the former field marshal. She is said to be heading neo-nazi movements which are backed in the United States. An official of the American High Commission said: "Premier Ehard indicated that he thought the job of teaching the Bavarians democracy might begin in the United States."\*

**FIRST BRITISH VOLUNTEER** for service in Korea, said the War Office on August 4, was Major Roy Farran, former Palestine intelligence agent whom the Jews accused of murder of a young Jew in Palestine in October 1947. Farran was acquitted by a court martial by suppression of vital evidence. . . . First man to volunteer for the city of Nottingham's contingent for Korea was fascist Samuel Anderson, who wore the emblem of the British Union of Fascists in his buttonhole. "I think," said Anderson, "it's about time someone went out to help the Americans."

**ATTEMPT TO STIR HATRED** against Jews and colored people in France was made in an anonymous pamphlet widely distributed in Paris in August. "Racial pollution" of the French is threatened, said the pamphlet, "as a result of the immigration of colonial natives and Jews who represent a twofold menace that must be dealt with."

**A GREEK JEWISH GIRL**, Odette Sabetay, who had obtained a teaching degree in Milwaukee on a scholarship from the National Council of Jewish Women, was forbidden in August to teach in Greek schools because she is not a member of the Greek Orthodox Church.\*

**POLISH JEWS** who have been granted State Awards by the Polish government for outstanding achievements during the year include Prof. Ludwik Hirsztfeld, of the Wroclaw Medical Academy, awarded the only first-grade prize in medicine; M. Berman, a political cartoonist; W. Godlik, a leading actor; S. Oppenheim, a mining engineer; and the brothers Forbert, film cameramen.

**A DEFINITION OF ANTI-SEMITISM** given in the first volume of the *Dictionary of the Modern Russian Literary Language*, published in Moscow this year, reads as follows: "An inimical attitude to Jews based on racial prejudice; a system of class feudal and bourgeois policy artificially instigating racial and religious hatred against Jews." This is followed by Stalin's famous characterization: "Anti-Semitism as the most extreme form of racial chauvinism is the most dangerous vestige of cannibalism. Anti-Semitism is useful to the exploiters as a lightning rod, pulling capitalism out from under the blows of the working class."

**MORE THAN 280,000** people in Israel, or over 40 per cent of the adult population, signed the Stockholm peace petition. *Al Hamishmar*, Mapam organ, stated editorially on August 3 that only the imperialists see any contradiction between the Korean war and the peace campaign, "for in fact the social and national liberation of the Korean nation strengthens the prospects of world peace and reduces the likelihood of war."

**COMMUNIST DEMONSTRATORS** at several Israeli movie houses in mid-August caused cancellation of a United States documentary film, "The UN Aids Korea."

**THE ISRAEL CABINET** in mid-August reinstated the police ordinance introduced by the former British administration in Palestine which provided that groups seeking to hold open-air meetings or demonstrations must first secure a permit from the district commissioner of the area where the meetings are to be held.\*

**TEN TEEN-AGE COMMUNIST** boys and girls were forcibly ejected from the Givat Brenner kibbutz in early August. The ten, who had immigrated from Bulgaria last year and said they were members of the Communist Party, went on hunger strike. There are indications that other kibbutzim plan to expel communists.

**THE LEBANESE GOVERNMENT** in early August brought to trial 28 persons accused of having taken part in a communist demonstration and 30 accused of having distributed communist leaflets. The government forbade the press to discuss the ways in which the government was fighting communism.

**HUNDREDS OF HUNGARIAN JEWS** who had emigrated from Hungary registered in July and August for return to that country after the Hungarian Legation announced that such registrations would be accepted. Long lines form daily outside the Legation to register. All those registering have been promised free passage, amnesty and employment on arrival.

**RATIONING OF CLOTHING AND SHOES** announced by the Israeli government on July 31 precipitated a shutdown of shops in protest. Purpose of the rationing was to save \$25,000,000 in foreign currency on importing raw materials from abroad. By August 7, nearly all privately-owned shops and restaurants were shut down in response to a call from the Merchants Association. Histadrut and cooperative stores remained open under police guard. Mass meetings against the rationing were addressed by speakers from the religious bloc, the Merchants Association and the rightist Herut Party. The shutdown was ended after two weeks by a Knesset vote of 57 to 36 approving the rationing scheme and a pledge by the government to modify the rationing regulations after consultation with representatives of the merchants. During the debate Premier Ben Gurion made the paradoxical assertion that Israel was "neither a socialist nor a capitalist state, since we encourage private enterprise." *Kol Haam*, communist daily, opposed the rationing order, asserting that it will lower the standard of living for the masses and calling for increased trade with the USSR and Eastern Europe and nationalization of foreign concessions and imports, which would render rationing unnecessary. The paper pointed out that fascist elements were exploiting general dissatisfaction to gain political influence and called on artisans and small traders to join their natural allies, the labor movement.
